GMPCS PERSONAL COMMUNICATIONS INC. - Mobile Satellite Services Terms and Agreement

(1) Availability Of Limited Service: Service is generally available to satellite terminals equipped for this service when within the satellite footprint. Service is furnished to Customer or Customer’s authorized user. A telephone number may not appear in more than one terminal. Customer has no property right in such number. GMPCS reserves the right to assign, designate, or change such number, when, in its sole discretion, such action is reasonably necessary in the conduct of its business.

(2) GMPCS Service: Customer has contracted to have GMPCS provide the service under the terms detailed in this Agreement. Basic Satellite Service is provided via the Inmarsat network. IsatPhone Pro terminal service is provided through stations operated by Inmarsat, Global Ltd. Customer agrees to remain as a subscriber of the service for a period of one year from the date of service activation, and furthermore, agrees to pay any applicable activation, monthly service, service usage fees and any applicable taxes thereon. GMPCS reserves the right to change rates at anytime.

Initial _____

(2.1) Renewal/Cancellation/Deactivation of service: All Post-paid plans automatically renew at the end of 12 months. Customers who do not wish to renew their IsatPhone Pro terminal contract must provide notice of cancellation to GMPCS thirty days prior to the end of the contract term. If notice of cancellation is not received the service agreement will be renewed on a month to month basis, except emergency plans which renew on a year to year basis.

(3) Early terminations: Early terminations of yearly service plans or within the first year of monthly service are subject to a \$250.00 cancellation fee per terminal or full payment of the contractual commitment based on plan type, whichever is higher. Notice of termination should be in writing to: GMPCS Customer Service Department, at 1501 Green Rd. Suite A-B, Pompano Beach, FL. 33064 USA. This Service Agreement cannot be assigned without the written consent of GMPCS.

(4) Contractual Limitations/Plan changes: If allowed by the service plan type, the customer may change their pricing plan to a higher bundle free of charge within the contract period. Moving to a lower pricing plan, when available, with fewer included minutes will incur a fee of \$50.00 and will renew the twelve month contract period. For example: Allowance plans require a 12 month minimum commitment, therefore, changing the plan type is not allowed until the end of the contract service period. Please contact GMPCS Customer Care for details.

(5) Data Transmission Use & Dropped Calls: Due to the technical nature of data setups and the inherent sophistication of data transmission through a variety of satellite and other operating systems, GMPCS makes no representation as to the success of voice or data calls through any system. Customer agrees that all data call attempts regardless of ultimate successful transmission and termination will be paid for and no credits will be given in the event of dispute of this nature. Along with potential incorrect use (i.e.: next to a building/obstruction), all satellite systems (including low earth orbiting satellite constellations) have inherent flaws and anomalies that can create dropped calls of either voice or data nature. Dropped calls will not be credited. GMPCS can provide data setup technical support beyond the normal provided setup instructions at an additional charge. Please consult with a sales representative for more details.

(6) Invoicing and Guarantee of Payment of Services: GMPCS will invoice customer monthly. Customers with annual plans will receive an invoice once a year and during any month in which there has been airtime usage. This bill is due upon receipt. GMPCS will charge the customer's credit card each month for the current month's monthly service fee and the previous month's airtime. It is the customer's responsibility to notify GMPCS when their credit card renews (with the new expiration date and any other changes) or if they wish to change credit cards. Failure to provide GMPCS with updated credit card information could result in suspension of service, deactivation of the SIM card, and a reactivation fee.

(7) Taxes: The price of the service does not include sales, usage, excise, ad valorem, property or any other taxes or fees now or hereafter imposed, directly or indirectly, by any governmental authority or agency with respect to the Service. Customer shall pay such taxes or fees directly or reimburse GMPCS for any such taxes. A 2.75% FCC regulatory fee is assessed against all service and airtime charges.

(8) Managed Services: When necessary, GMPCS will, on behalf of the customer, complete the initial account creation process based on information provided by the customer and will conduct train-the-trainer sessions via Web-X on the administrative applications. The customer Administrator will be responsible for all account set up functions, data input and maintenance. GMPCS will not be held responsible for any customer data entry or maintenance. Deposits will be refunded at service or contract termination.

(10) Foreign Credit Cards: Foreign credit cards will be accepted only after a complete verification has been done with the issuing bank. The issuing bank must contact the credit card holder and confirm the authorization for the charge to be approved. Verification of foreign credit cards may delay order processing for up to 72 hours. The deposit requirements in (8) above will still apply. GMPCS reserves the right to decline any credit card transaction.
